Re: Share Care Transport, Inc Expedited Review of Application for Class C Non Emergency
Charter

Date: January 15, 2010

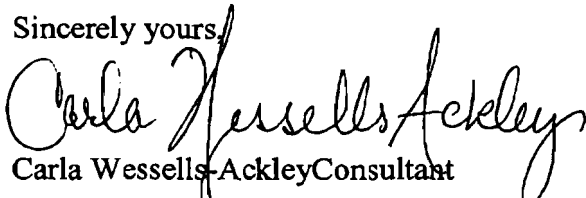

Docket No. 2010-27-T

I understand you have been inundated with requests for expedited reviews without reasonable explanations. Please allow me to share with the commission why I have requested an expedited review for my client, Henry Sherald, Share Care Transport, Inc.

There are two key reasons for this request; 1) along with ownership, the company has four (4) qualified staff/drivers who are very anxious to begin work and additional wait time for their employ would create additional hardship on them, and 2) the company will be capable of fulfilling the need that Logisticare (the broker) in Region 6 (Charleston, SC) currently has for up to 60 trips per day in which the broker is having challenges fulfilling with competent transportation providers as soon as we have the vehicles inspected, providing a Charter is granted. Many people would be positively affected by this committee granting the request for expedited review.

Thank you very kindly. I am,

Sincerely yours,

Carla Wessells-Ackley Consultant
Share Care Transport, Inc.
